# Technical data

---

Capacity of 28 forms , i.e. 14 positions with 2 forms ( ca. 1350x265) to load 2 stockings or 1 pantyhose on each set.

**Loading assistance**

- thanks to a suction pipe the article is maintained vertically above the form.
- The 2 forms open automatically to make loading easier.
- The intermediate parts open automatically to facilitate the positioning of briefs

After loading, the forms close, the intermediate parts come closer and ensure good support of briefs during the boarding process.

Intermediate parts can be easily removed.  
The forms fitted on shutters can be substituted without the help of a tool.

**Steam treatment up to 3 bars with uniform steam distribution.**

**Pressure adjustment : manual or automatic.**

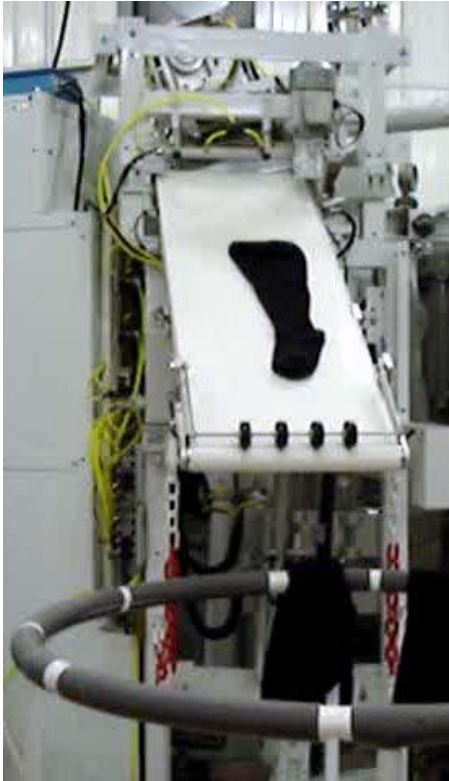

**Temperature may be controlled from and displayed on the operator's touch screen.**

**Drying at low temperature (less than 100°C in some cases) on 5 positions.**

**Available in 3 versions**

- A) with electric resistances
- B) a steam exchanger
- C) a steam exchanger + electric resistances

**Automatic stripping** composed of a stripper of the belt type with product raising up assistance.  
Straight forms or forms with shaped foot for a proper boarding of the heel.  
No creases during stripping.

Stockings or pantyhose are stacked on a storing circle with a capacity of 14 stacks.

All the parameters (steam pressure, temperature, drying time, ...) may be preset according to the products to be processed.

The operator only needs to enter a code from the touch screen to adjust the machine completely.

**Production : up to 300 pantyhose or 600 tights per hour.**

**Weight : about 3000 kg**

**Indicative consumptions :**

- electricity	2 to 12 kW
- steam	50 to 80 kg/h
- compressed air	9 Nm <sup>3</sup> /h

## **Options**

---

Machine available with or without stripper.

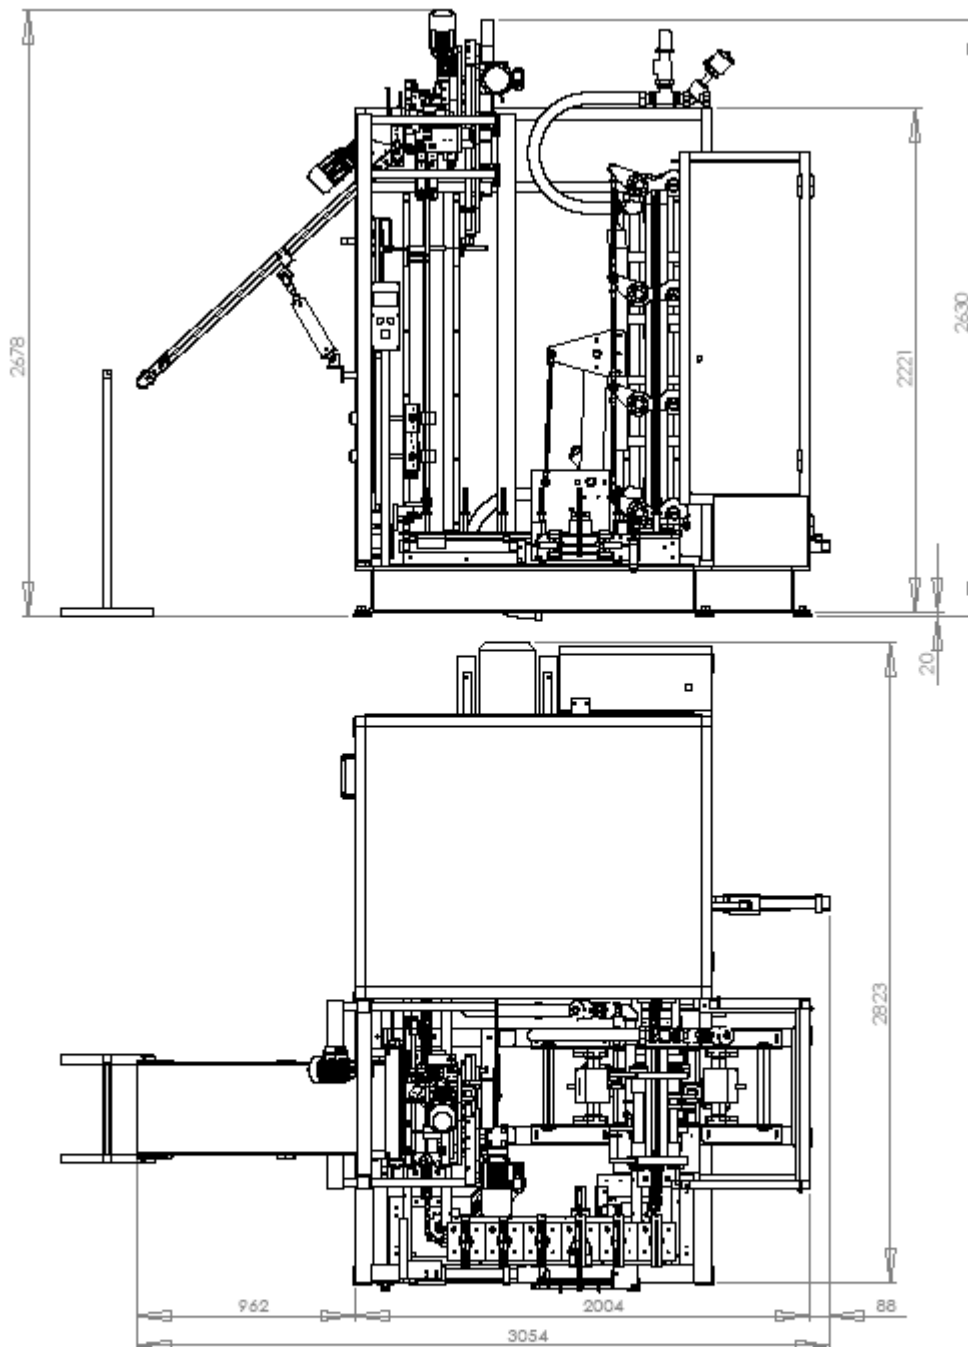

The machine may be fitted with 14 single forms for stockings or socks.

Possibility to process straight products such as leggings, pullover sleeves, tracksuit legs..

For any other option, please contact us.

# Floor space dimensions

---

Commissioning on site is carried out by our engineers.
